

Referral Process

- Talk with your doctor about the concerns you have with your child's development.
- If your doctor agrees, ask him/her to fax a referral to Kids in Motion.
 - Clinical notes including concerns
 - Prescription for "OT to evaluate and treat" as well as your child's diagnosis code(s)
- Once the referral has been received by Kids in Motion, one of our team members will reach out to schedule an initial evaluation to take a closer look at how we can help your child.
- If your child qualifies for occupational therapy services, we will begin treatment sessions!
